### ADDITIONAL INFORMATION

#### Personal Projects :

#### Face Recognition using KNN Algorithm and Open-CV

Nov 2020 – Dec 2020

Project description : Face recognition is a crucial security application. Through this project, a very basic form of face recognition has been implemented using the Haar Cascades Classifier, openCV & K-Nearest Neighbors Algorithm.

#### Smart Brains

Apr 2021- May 2021

Project description : A full stack image recognition app. User can choose to register/sign-in. When signed-in, images can be uploaded and a face detection function will detect faces/portraits in photograph, adding 1 point to user ranking.

### DANCING, READING

Active member of College Cultural Team VERVE. Participated in many inter-college programs and won at state level competitions. Interested in Spiritual and Self-help content for reading.
